SPRINT 2 REFLECTION - TEAM WHAT THE C#

Things we did well
- Worked well as a team
- Communication was great
- Great attendance for team meanings
- Stuck to goals/plan we made at the beginning of the sprint
- Team was not afraid to ask each other for help

Things we could improve
- Start working earlier into the sprint
- Integrate code earlier
- Fixation on small problems
- Need to do more documentation
- Run code metrics more often
- Use github more for commenting on code and code reviews
- Maybe go to office hours more for issues with code
- Use the agile/burndown board in the github repo to more accurately document each task
